Purpose:

These questions are designed to give you the information needed to provide the best, most appropriate care for children. This information is confidential and parents must be reassured it will not be shared without their written permission.

Experts in the field recommend completing an assessment form for each child. It can help start mutual trust and respect that will develop into a strong, cooperative partnership between parents and caregivers.

The assessment should be completed prior to enrollment. Give parents an opportunity to review your enrollment forms and parent handbook before you complete the assessment form. The parent handbook or operational policies set forth your program's philosophy and values.

The enrollment interview is the time to obtain critical information about the child and provide information on your program's operational policies, such as health checks (if conducted), procedures for the release of children, and illness and exclusion criteria. It also provides parents an opportunity to assess your program and determine if it is best suited for their child's needs.
